The fast, easy way to get your Economic Impact Payments

Get your funds faster and avoid the hassle of checks with these simple steps

The IRS has started to distribute Economic Impact Payments. Here’s how to use your Mastercard® prepaid card account to receive your payments.

**My prepaid account IS SET UP with the IRS**

If your account has already been used to receive tax refunds, you’re all set. Your payments will be deposited directly to your prepaid account in the coming weeks.

- Visit [irs.gov/coronavirus](http://irs.gov/coronavirus) to ensure your prepaid card routing and account numbers are up to date.
- If you don’t have your plastic prepaid card, log into your prepaid account to reorder one now.

**My prepaid account is NOT SET UP with the IRS**

That’s OK. Your prepaid account can easily be set up to receive direct deposit payments from the IRS.

- Log into your prepaid card account to get your routing and account numbers if you don’t have them already.
- Visit [irs.gov/coronavirus](http://irs.gov/coronavirus) to securely add your routing and account numbers.
- If you don’t have your plastic prepaid card, log into your prepaid account to reorder one now.

Don’t have a prepaid card yet?

Just go to [mastercard.us/prepaid](http://mastercard.us/prepaid) to choose one that is right for you.

Prepaid cards make it easy to manage your finances

- They’re faster and more convenient than using cash.
- Use your card to pay bills, shop online, and even transfer money to friends or family.
